

Product Name: SD LAN card adapter

<p>"SD LAN card</p>	<p>SD LAN Card adapter (SD to SD adapter included) Just in case you don't have Wi-Fi for high data rate for applications like VOIP and Remote Streaming TV / Video!</p>  <div style="display: flex; flex-direction: column; align-items: flex-end;"> <div style="background-color: #0070C0; color: white; padding: 5px; text-align: center; margin-bottom: 5px;">Connects to RJ45 LAN socket</div> <div style="background-color: #0070C0; color: white; padding: 5px; text-align: center; margin-bottom: 5px;">10M Base-T Ethernet</div> <div style="background-color: #0070C0; color: white; padding: 5px; text-align: center; margin-bottom: 5px;">4-Bit SDIO</div> <div style="background-color: #0070C0; color: white; padding: 5px; text-align: center; margin-bottom: 5px;">Low Power</div> <div style="background-color: #0070C0; color: white; padding: 5px; text-align: center; margin-bottom: 5px;">Compact & Light</div> <div style="background-color: #0070C0; color: white; padding: 5px; text-align: center;">Stable Quality</div> </div> <p> ③ Description: SD Travel LAN card for PDA (Note: SD to SD adapter included) ③ Application: When you go on holidays or short business trips, you may want to just carry your PDA phone rather than notebook. You may not have Wi-Fi everywhere you travel. This is a LAN card adapter for travelers to access the Internet where no Wi-Fi is installed. </p> <p> ③ Low power consumption: average 80mA (much lower than Wi-Fi; so better PDA battery life) ③ Light and Compact: 30mm (W) x 70mm (L) x 20mm (T); Weights: 35g ③ Much smaller and lighter than wireless travel routers. Also, with LAN stability, you don't have to worry about the Wi-Fi signal strength and interference. </p> <p> Note: Pocket PC not included. VOIP software and Remote Streaming TV applications are not included. Note: *Requires broadband Internet connection; fees may apply. </p>
